TEL. (617) 782-9000 FAX. (617) 254-2247

Wholesalers of HVAC Controls and Solutions since 1945

1 hour class on cloud based VPN routers

We can now get remote access into jobs:

- Without the headaches of dealing with IT departments
- With or without a supervisory control “front-end”
- With or without internet accessibility
- With additional security!

Please contact: jeff@interstatecontrols.com
with any additional question

FIREWALL FRIENDLY

Outbound Internet connection across the factory LAN using port 443 (HTTPS) or UDP 1194. Easy to set up with no firewall issues and only access to the machine. No access to the factory LAN.

CUSTOMER KEEPS CONTROL

VPN access can be controlled with external key switch.

PLUG'N ROUTE ON LAN

Connect any Ethernet devices without the need to configure the gateway. No need to stop the machine while configuring the eWON.

HIGH SECURITY

Fully secure SSL-based VPN tunnel. The information exchanged during the communication is encrypted (SSL - 2048-bit keys) and only authenticated users can connect to the eWON.

SERIAL PLC GATEWAY

Large PLC support RS232/RS485/422, MPI/Profibus to Ethernet, compliant with world leading PLC manufacturers (Siemens, Rockwell Automation, Schneider Electric, Omron, Mitsubishi, VIPA, Modbus, etc.).

EASY TO SET UP AND USE

A streamlined web user interface and wizards for a fast setup without the need for an IT expert's assistance.

REPORTING

Full visibility with the connection report: list of users who access particular machines + time of their connection .
