Wholesalers of HVAC Controls and Solutions since 1945

1 day advanced programming class on Johnson Control's FX Programmable Controller Tool (FX-PCT)

The Facility Explorer Programmable Controller Tool (FX-PCT) is used to configure, simulate, and commission the Facility Explorer Programmable Controllers (FX-PCGs, FX-PCVs, and FX-PCXs). The FX-PCT has three modes of operation that provide key functionality for your system: Configuration, Simulation, and Commissioning. Students must be familiar with the basic operations of all three modes.

5/8, 8-3pm, \$150, 8 person limit
10/23, 8-3pm, \$150, 8 person limit
Class held at our Brighton office

**** This class geared toward programmers that want to improve their skills ****

Laptop and FX-PCT software needed
A one hour individual lunch break will be taken
