Wholesalers of HVAC Controls and Solutions since 1945

2 hour introductory class on “**FX – PC**”

FX- PC allows you to select and configure applications for the new field controllers.

10/2/18 7:00 - 9:00am

The course is designed to familiarize students with the new Facility Explorer product line. We will cover the system architecture, software, and programming process for these field devices. Students will be shown how to use the selection tool to program controls from the existing application library.

Let us know if you are interested in this class but cannot attend this day or time.
You must **pre-register** for this free class. If the class is not full we may reschedule.
