[Gas Meters & Gas Regulation for Condensing Boilers](#)

7-21-18 3:00-5:00pm

Class held at our office- 30 Vineland St. Brighton, MA

This class will focus on the differences between the popular types of gas meters: Diaphragm, Rotary, Turbine & Mass Flow. Each meter is best suited for different applications. We will then cover the different requirements for gas regulators when used on generators and condensing boilers.

You must pre - register for this free class. If the class is not full we may reschedule. Let us know if you are interested in this class but cannot attend this day or time.

Please reserve your FREE seat by emailing us mike@interstatecontrols.com
