WEISS

AIR CONDITIONING: controls, accessories, charging sets

ACCESSORIES: batteries, capacitors, contactors, cleaning supplies, filters/driers, thermostat guards

ACTUATORS: electric, electronic, pneumatic

BOILER: operating & safety controls, feeders, limits, chemicals, brushes

**BURNERS:** gas, oil, combination, Industrial Combustion (IC), Midco, Economite

COMBUSTION: controls, draft controls & inducers, electrodes, flame rods, test equipment, analyzers

**CONTROLS:** its what we do!

DAMPERS: parallel, control, smoke & fire, hardware & accessories

DDC (Direct Digital Control): controls, transmitters, sensors, system design, Johnson Controls, R-Z

DETECTORS: duct-smoke, CO, CO<sub>2</sub>, water, & any type of gas

ECONOMIZERS: controls, parts, packages

**ENGINEERING:** field support, training, panel fabrication and system design

EQUIPMENT: vav boxes, fan coil units, electric duct heaters

FLAME SAFEGUARD: Fireeye, Honeywell, O<sub>2</sub> trim & linkageless systems, Nexus, Controlinks

FLOW: controls, switches, meters

GAS: regulators, meters, detectors, ignition controls, hot surface ignitors

GAUGES: temperature, pressure, liquid filled, red line gauge glass, digital, panel mounted

**INTEGRATION:** building automation system unification, access, CCTV, security, lighting & energy monitoring

METERS: gas, oil, water, hour, recorders (data loggers), combustion analyzers, btu, multimeters, smoke

MOTORS: burner, condenser, fan, pump, protectors, phase monitors, starters, drives

OIL: strainers, tank gauges, filters, nozzles, pre-heaters, pumps, ignition transformers, valves

PRESSURE: controls, gauges, transmitters

PNEUMATICS: controls, refrigerated air dryers, filters, fittings, field calibration

PUMPS: condensate, sump, oil transfer, general purpose, glycol feeders

REGULATORS: gas, air, water, oil, steam, differential, low & high pressure

RELAYS: all shapes, sizes and voltages

SMOKE: opacity meters, actuators, detectors, dampers

STEAM: condensate pumps, traps, valves, vents

SWITCHES: air, gas, temperature, oil, pressure, vacuum

TIMERS: defrost, indoor-outdoor, spring wound, photo electric, digital

TEMPERATURE: controls, thermostats, thermometers, switches, gauges, recorders, data loggers

THERMOSTATS: electronic, pneumatic, remote sensing, wall/duct mount, wireless

TRANSFORMERS: control, ignition, buck / boost

VALVES: 2-3-4 way, ball, butterfly, check, combination, control, gas, gate, globe, motorized, non-electric, pneumatic, relief, solenoid, thermostatic, oil, zone, up to 6" in stock

VARIABLE FREQUENCY DRIVES: JCI, Cutler-Hammer, Eaton, Danfoss, Siemens, Square D

WIRE & WIRELESS: sensors, transmitters, controls, thermostats

ZONING: residential and commercial systems
